Since last we met, the all-engulfng world war has drawn our own country into its maelstrom, and ominous clouds rest over the earth, obscuring the vision and oppressing the souls of mankind. Yet, out of the confusion and chaos of strife, there has developed a stronger promise of the triumph of democracy than the world has ever

allied nation has announced that it is fighting for democracy, and own President has declared that fighting for democracy, for the right of those who submit to authority to have a voice in their own government.' Now, Russia has answered the call; Great Britain has pledged full suffrage for women, and he measure has already passed the House of Commons by the enormous majority of 7 to 1. Canada, too, has responded with five newly enfranchised provinces; France is waiting only to drive the foe from her soil to give her women political liberty. FAITH TO BELIEVE

THIS NATION WILL FOLLOW Such an array of victories gives us aith to believe that our own government will soon follow the example of other allied nations, and will also pledge votes to its women citizens as an earnest of its sincerity that in truth do fight for democracy.

This is our first national convenon since our country entered the war We are faced with new problems and new issues, and the nation is realizing ts dependence upon women as never iso that, willingly as women are now ciently when they shall have received the full measure of citizenship. These facts must be urged upon Congress. and our government must be convinced that the time has come for the enfranchisement of women, by means of
